# EyeCSite

Quantitative Measurement
Solution for OGI cameras

Real-time Leak Measurement of all VOCs

Seamless Software Integration

User-friendly Interface

GAS QUANTIFICATION
SOFTWARE

VOCs SO$_2$ CH$_4$

EyeCSite detects and quantifies gas leaks for both 24/7 Fixed & Portable EyeCGas cameras. EyeCSite can quantify all VOC's (including Methane, Benzene etc.) and other additional gases. In a simplified and user friendly interface.

WHY CHOOSE EYECSITE QUANTIFICATION?

- ⊘ For Portable & Fix OGI

- ⊘ Sensitive to all VOC's

- ⊘ Real Time Gas Detection

- ⊘ Configurable Sensitivity

- ⊘ Real Time Gas Quantification supports Modbus/OPC/ONVIF/HART communication protocols
